DISASTER
dioramas!

1

Fold up the crate along the dashed lines. Glue or tape the tabs to the inside of the crate on two of the sides.

Take the fire piece from below (Step 2) and place the end of it into the crate and secure it with glue or tape. After the fire is inside, secure the top tabs to the crate closed.

Secure the lantern to the top of the crate (near whatever side the fire is on)

Glue or tape the crate to the "Glue Crate here" section of the base of the Diorama (page 1)

2

Cut out the flame and secure to the inside of the crate.

3

Fold up the wall on the dashed lines, and glue the tab on the side of the wall. The wall will be placed between the two columns from page 4, and then into the base of the Diorama.
