

Fold the dotted lines - first (a) and then (b). Stick the tab-y part between the folds. Use a knife to cut the solid lines around "ice 1 & 2". Do not cut out the "ice 1" and "ice 2" shapes. Place the tabs from the icebergs (page 2) into the cut lines, and tape underneath. Cut the solid line across from the icebergs to place the diorama backing (blank side towards icebergs) from page 3. Cut the thick solid line for the bottom of the ship to fit into.
